

# PARKSAFE™

Protect the wellbeing of your visitors and your organization.

# Say Hello to ParkSafe™

Mitigate potential liabilities from taking place on your property.

At Precise ParkLink, protecting the wellbeing of your visitors and organization is our top priority. Under ParkSafe™, we offer a variety of safety solutions and services that help mitigate potential liabilities from taking place on your property, all while ensuring your daily operations are running smoothly.

## QUALITY ASSURANCE REPORT

A safety and implementation checklist for your parking facility.

## CONCRETE & FACILITY INFRASTRUCTURE

Make your parking facility safe and appealing.

## TOUCHLESS SOLUTIONS

Bringing touch-free and contactless visitor journeys to you.

## SAFETY & DIRECTIONAL SIGNAGE

Ensuring safe customer journeys and operational efficiency.

car accidents occur in parking lots and garages.

# Ensure Your Daily Operations Are Running Smoothly

## Creating safe and reliable parking operations.

ParkSafe™ is a comprehensive safety program that helps maintain safe parking operations. Under the ParkSafe™ program, we conduct regular Quality Assurance Reports to ensure all parking safety standards are being met. During this safety audit, the following actions are taken:

# Certificate of Recognition (COR®)

## Our comprehensive Health and Safety Management System.

Precise ParkLink is proud to be COR® certified, in accordance with the Infrastructure Health and Safety Association (IHSA) in the province of Ontario.

The implementation of our comprehensive Health and Safety Management System (HSMS) demonstrates our ability to identify, assess, and control health and safety-related risks. This certification is recognized by the Canadian Federation of Construction Safety Association (CFCSA).

### What is COR®?

The Certification of Recognition (COR®) is an occupational health and safety certification program that is often required to acquire both public and private sector construction contracts. Companies must undergo a comprehensive and detailed audit of their current Health and Safety Management System (HSMS), to determine if they meet or exceed the requirements for COR®.

### Our Commitment

At Precise ParkLink, we are committed to upholding our COR® certification by providing a safe and healthy work environment for our employees, contractors, clients, and the public. We are dedicated to maintaining and continuously improving our HSMS that exceed regulatory requirements.

# Touchless Solutions

Bringing touch-free and contactless visitor journeys to you.

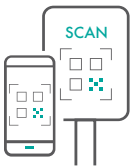

## Tap-and-Go Payment

This hardware integration for your existing gated parking system enables quick tap-and-go as well as cashless payments using EMV-certified banking platforms that accept credit card, debit card or mobile wallets.

## EasyWave™ Entry for Gated Systems

EasyWave™ is a hardware integration for your existing gated parking technology. Enhance your system with an illuminated infrared button activated by a simple hand wave to prevent the spread of viruses and enhance your customers' experiences.

## Parkedin™ Scan-to-Pay

This hardware integration for your existing gated parking system enables quick tap-and-go as well as cashless payments using EMV-certified banking platforms that accept credit card, debit card or mobile wallets.

## Hands-Free Permits

Offer your customers a hands-free entry and exit option when they reserve or park in your facility regularly. Hands-free permits can be paired with long- or short-range readers, and consist of Bluetooth Low Energy (BLE), HID, AVI, or mobile permits.

## Virtual Customer Service

Our two-way video and voice communication technology allows for high-quality customer assistance while maintaining physical distance. Virtual communication allows you to offer customer assistance 24/7 without the need for on-site parking attendants.

## Digital Communications

The search for parking begins online approximately 6 to 14 hours prior to when a customer arrives at their destination. Reduce the need for in-person interactions by ensuring your parking information—such as new protocols, hours of operation, rates, and touchless payment options—are communicated and readily available online on [www.findparkingnearme.com](http://www.findparkingnearme.com)

## Scan-for-Assistance

Scan-for-assistance solutions provide visitors with a one-of-a-kind, immediate self-serve option. The customer service QR codes displayed on signage throughout the parking facility give access to an extensive, easy-to-navigate digital FAQ menu.

# Health and Safety Policy

The Senior Management of Precise ParkLink is committed to the health and safety of its workers and for all who are involved in our projects. We recognize that all workers have the right to work in a safe and healthy work environment. Protection of workers from injury or occupational disease is a major continuing objective. We are committed to continuing improvement toward an accident-free workplace through effective administration, education, and training. All managers/supervisors and workers must be dedicated to the continuing objectives of eliminating the “near misses” which will greatly reduce the risk of injuries.

Our philosophy is that the well-being of our company and clients is dependent on the health and safety of our workforce. We are committed to provide a safe work environment that promotes occupational health. No job is to be regarded so urgent that time cannot be taken to do it in a safe manner. The welfare of the individual is our greatest concern.

Managers/supervisors will be responsible for the health and safety of workers under their supervision. Managers/supervisors are subject to various duties in the workplace, including the duty to ensure that machinery and equipment are safe and that workers work in compliance with established safe work practices and procedures. Workers must receive adequate training in their specific work tasks to protect their health and safety.

All managers/supervisors, workers, and subcontractors must protect their own and fellow workers’ health and safety, and are responsible for working in compliance with the applicable health and safety legislation of the province in which they work and all applicable regulations and safe work practices and procedures established by the Company.

Senior Management is committed to work jointly in a spirit of consultation and co-operation with workers in the development and implementation of our health and safety program. We recognize that a safe work environment can be established and sustained only through a united effort by all workers and that the assistance of each person is required. Your attitude and cooperation in promoting accident prevention will assist in achieving our goal: “no one gets hurt”, and make our Company the best place to work, one where workers share in corporate growth and success.

Everyone from the President to new workers has the responsibility to ensure a safe and healthy workplace. Let’s all work together to prevent incidents from creating unwanted losses and personal injuries or illnesses.

Peter Groccia

President & CEO

# About Precise ParkLink

CANADA'S TRUSTED PARKING INDUSTRY LEADER FOR MORE THAN 30 YEARS.

Precise ParkLink has grown into a national managed services and technology firm with over 800 employees across Canada, a head office in Toronto, and 13 supporting offices nationwide. We manage lots and supply technology & services to thousands of customers in the healthcare, municipal, commercial, institutional, and private sectors.

But what sets us apart from other parking operators isn't where we are, it's who we are: a full-service urban mobility firm. That means we don't outsource to third parties. We're a one-stop shop for every operation and their transportation needs.

As a vertically integrated parking services company, Precise ParkLink has the ability to provide a level of management and technical integration that is best-in-class within the industry. Our focus on revenue controls and our ability to leverage technology for the delivery of cost-effective urban mobility solutions are key traits that completely separate us from any other managed services firm out there. By leveraging technical innovation, we've delivered cost-effective and customer-focused solutions to hundreds of clients over the years.
